Dear ICDA Member,

The ICDA committee is happy to report that following strong discussion with the FEI on behalf of ICDA members we have successfully secured the the suspension of the implementation of Annexes 11 and 12 of the FEI Driving Rules 2025, pending the full revision of the FEI Driving Rules that will take place in 2025.

This is a huge win for ICDA and the driving community. We hope that this is just the start of ensuring that the driving community are heard and in doing so we secure a better future for the sport of carriage driving.

Please remember to check back to the website and facebook page for regular updates and information. A survey will be landing in your inbox next week and we urge you to respond.

Wishing all our members a very Merry Christmas.

ICDA Committee
